

Consultant Services RFP Questions:

1. On page 2, it asks for an electronic copy of the proposal. On pages 3-4, it refers to a "sealed envelope" and "mailed proposal." **Is a mailed copy required? Our apologies for this oversight. The proposals may be submitted electronically; a mailed copy is NOT required.**
2. In terms of the outcome of the project, on page 2, it refers to "guidance on fund development and a strategy for diversifying fund through identification of local, State, and Federal resources which align with the BOARD priority areas." Are you asking the consultant to research funding options or facilitate the board through a process exploring different funding options? **The Board is requesting a strategy to diversify funds in order to continue to provide current or additional services. Consultant may be asked to provide potential funding sources based on priority needs of the Board.**
